TEST RESULTS:

Pesticide / Parameter	Dimension	Result
------------------------------	------------------	---------------

No pesticides/parameters from the above mentioned spectra of the scope of analysis were detected.

CONCLUSION:

The results of the above mentioned analyses are in accordance with the requirements for Pesticide Residue Levels of the German Association for Organic Production and Trade „BNN-Herstellung und Handel“.

With respect to the results of the above mentioned analyses, samples of the same quality which carry the organic label can therefore be matched likewise as long as they comply with the requirements of EU Regulation 889/2008/EC (and its amendments).
